ROMANIAN CONFERENCE OF BALNEOLOGY

Slănic Moldova - brief description, tourist attractions and useful information

City Slănic Moldova is situated in the southwestern county of Bacau, in a depression flanked by high ridges, in the river valley Slănic. The resort town has a remarkable tourism potential, largely due to the hot mineral springs that have transformed the town into one of the leading holiday destinations for both those who need treatment for various diseases and for those seeking relaxation in a picturesque region of Moldavia.

Slanic Moldova itself is a tourist attraction for those interested in tourism in Moldavia Region of Romania, both in summer and winter. Among the tourist attractions of the resort are found mineral springs area, city park, gorge and Slanicului waterfall and several places of worship: Stephen the Great and Holy Orthodox Monastery Church and the Catholic Church.

Geography - location, component, climate

The main avenue in town Slănic Moldova National Road 12B Tg Ocna - Slănic Moldova.

Accessibility

By its location, the city Slănic Moldova borders Dofteana Common in the north, the village Cerdac the east, bathrooms Slane on the southwest and Harjit village in the south.

City has an area of about 115 km², heavily wooded, resort population totaled about 5,000.

Hydrography: River City Slănic and Trotuș have their confluence in the south part of the resort.

The climate of the region in which the Slănic Moldova is transitional continental with cool summers and mild winters, the average annual temperature hovering around 7.1 ° Celsius.
